Where Technology Meets Seamless Collaboration

CollabSight Engineers Next-Generation Boardrooms, Command Centres, Active LEDs and IT Ecosystems that Empower Enterprises to Communicate, Collaborate and Control — Without Limits.

ABOUT

COLLABSIGHT TECHNOLOGIES PVT LTD

CollabSight Technologies Pvt Ltd is a next-generation Audio Visual, IT Collaboration, and Integrated Technology Solutions company specializing in intelligent workplace and mission-critical environments. We design, deliver, and support advanced Boardrooms, Video Conferencing Systems, Command & Control Centres, Active LED Displays, NOC/SOC Infrastructure, and Enterprise Collaboration Ecosystems.

With a strong focus on innovation, usability, and reliability, CollabSight empowers organizations to communicate, collaborate, monitor, and control seamlessly through future-ready technology solutions tailored to modern business needs.

Our Offerings

Smart Technology Solutions for Every Need

Audio Visual & Collaboration

End-to-end AV solutions for meeting rooms, boardrooms, and collaborative spaces.

Video Conferencing & UC Solutions

High-quality VC systems and unified communication solutions for seamless connectivity.

Active LED & Digital Displays

Premium LED video walls and digital display solutions for impactful communication.

Command & Control Centres

Design and deployment of advanced command centres for real-time monitoring and decisions.

Automation & Control Systems

Intelligent automation solutions for smart, seamless control of AV and IT infrastructure.

Customer

IT Infrastructure Solutions

Reliable and scalable IT infrastructure for modern business environments.

Cloud & Hybrid Solutions

Secure, scalable, and cost-effective cloud and hybrid solutions.

Managed Services

Proactive monitoring, maintenance, and support for uninterrupted operations.

Digital Signage Solutions

Dynamic and engaging digital signage for internal and external communication.

AMC & Support Services

Comprehensive AMC and dedicated support for long-term performance and reliability.

Network & Security

Robust end-to-end solutions to ensure 24*7 security.

Data Center Solutions

High-performance data center infrastructure for business continuity, security, and scalability.

AV SOLUTIONS FOR A HUDDLE ROOM

Smart Spaces. Seamless Collaboration.

Huddle Rooms are compact meeting rooms equipped with audio and video capabilities that companies use for quick team meetings. Unlike large conference rooms that require prior reservations, huddle rooms offer a convenient solution for spontaneous collaboration. If you need a last-minute space to hold an unplanned working session or a room for smaller scheduled meetings, a huddle room is your quick fix.

AV SOLUTIONS FOR CONFERENCE - BOARD ROOM

Engage. Collaborate. Decide.

Why Businesses Prefer Video Conferencing Systems?

Video conferencing has become integral for businesses, offering seamless communication across industries. It connects remote workers effectively and enables face-to-face meetings virtually. Cloud-based platforms like Zoom, Teams, and Google Meet simplify remote participation without travel.

AV SOLUTIONS FOR ALL HANDS / TOWNHALL

Empower Every Voice. Engage Every Audience.

Empowering Communication with Advanced Audio/Video Solutions

In today's workplaces, conducting group presentations and Q&A sessions often involves gathering everyone in communal areas while ensuring remote workers remain engaged through live streams or videoconference links. The success of such events heavily relies on advanced audiovisual (AV) systems. Our solutions ensure clear messages and enhanced engagement, offering high-quality AV systems tailored for various meeting areas and event spaces.

Your Infrastructure, Our Innovation

Workspace Management Solution

Market Leader in Workspace Management Solution

- Desk Booking & Meeting Room Booking
- Visitor Management & Car Parking
- Geo Location , QR Code Check-in
- Superior Guest Experience
- Proximity Check-in & Card Swipe
- Collaborative End –to- End experience
- Reduce Carbon Footprint
- Find Colleagues and manage desk (Zone or Team wise)

Live Monitoring & Analytics

IVR Designer

Omni-Channel Experience

Open APIs

The Future of Control Room Technology

- Simplified user experience: hotkeys vs. touch screens, glide & switch, multi-viewers, user profiles, operator dashboard solutions
- Event-driven automation, IoT enabled environmental monitoring
- Long distance WAN or fiber extension for distributed facilities
- Cloud-enabled and IP-based extension/scalable, secure, easy-to-deploy matrix systems
- 4K/8K video resolutions, implications for bandwidth
- Integrated result-driven software/hardware solutions
- Virtualization, RDP/PCoIP (ultra) vs. end to end

Military Control Rooms and Operation Centers

| Broadcast – PCR (Production Control Room)

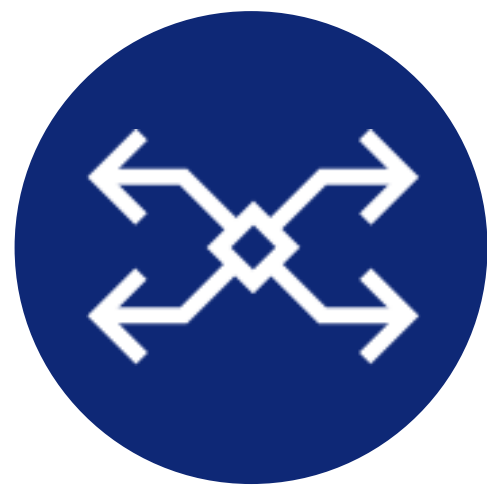

Utility Control Rooms

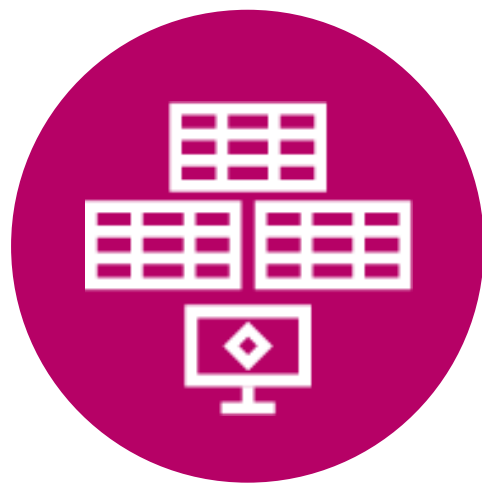

Transportation Control Rooms – Railway, ATC, Maritime

Premium Services

KVM Switching and Extension

Simplify signal management with reliable switching and extension equipment.

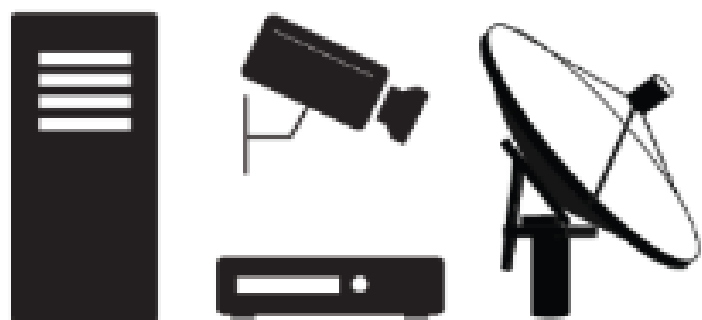

Video Walls and Digital Signage

Make decisions from a common operating picture or shared display.

IoT Monitoring, Sensors, and Gateways

Monitor and automate your control room and equipment from anywhere, at any time.
